

Canadian Undergraduate Conference on Artificial Intelligence

Sponsorship Package

March 2021 | Toronto, Ontario

Land Acknowledgement

Although this year, the conference has gone online, we acknowledge the land we traditionally meet on in Toronto. This land is the traditional territory of many nations including the Mississaugas of the Credit, the Anishnabeg, the Chippewa, the Haudenosaunee and the Wendat peoples and is now home to many diverse First Nations, Inuit and Métis peoples. We also acknowledge that the city of Toronto is covered by Treaty 13 with the Mississaugas of the Credit. To acknowledge this traditional territory is to recognize the territory's significance for the Indigenous peoples who lived, and continue to live, upon it.

About CUCAI

The first annual Canadian Undergraduate Conference on Artificial Intelligence (CUCAI) took place on March 9th, 2019. Founded by QMIND - Queen's AI Hub and a strong Queen's community, the event marked its debut on the national stage with delegations from Queen's University, McGill University, University of Toronto, Ryerson University, and University of Manitoba.

At CUCAI 2020, over 300 students, industry leaders, and partners came together for two days to discuss the state of Canadian AI. This was the largest attendance for a conference hosted by a group of Queen's University students to date.

Due to COVID-19 restrictions, CUCAI 2021 will be held over two days online and we will be accepting over 700 delegates from the top schools in Canada. The decision to hold CUCAI 2021 online was made to ensure both our delegates and our industry partners remain safe while receiving the same phenomenal value, opportunities, and experiences as found with the event in previous years. Please refer to Pg. 9 for our detailed COVID-19 response.

All of the phenomenal events from our past two conferences will still be taking place at CUCAI 2021. This includes the design team showcase, industry showcase, presentations and workshops from speakers across the industry, a panel discussion on ethics in AI, pitch competition and a number of networking sessions, along with the inaugural student executive team showcase event.

Our community is one where we actively challenge the status quo around what undergraduate students are capable of achieving in the field of artificial intelligence. We are makers, innovators and disruptors. We have chosen this field because we know we can have an incredible impact. Our goal is to continue to grow our community and provide a space for undergraduate students to share their knowledge and explore the world of AI. The purpose of CUCAI is to create an environment where like-minded students can connect with each other and be supported in their ambitious goals. It's an opportunity for hard-working and innovative thinkers to share their thoughts and demonstrate what they have been working on. As a speaker, CUCAI is the perfect place to interact and connect with top talent in AI and machine learning.

Projects and Research Papers

CUCAI provides an opportunity for undergraduate design teams to show off their hard work to fellow members and industry representatives. This year, there will be over 30 design teams attending CUCAI. Each of these teams is comprised of talented and ambitious students who will be presenting a unique project within the field of AI. The student showcase is an opportunity to interact one-on-one with these students. There will be a lookbook available before the conference that will detail all the attending teams, but here are some past highlights.

2020 Projects

Patient Number Prediction

The Patient Number Prediction team [projected the number of patient inquiries](#) that Akira, an online healthcare company, received [1-2 weeks in advance](#).

Autonomous Driving Robot

The Autonomous Robot team worked with a TurtleBot to develop an autonomous robot that was able to detect terrain and objects to [optimize the best route to travel and avoid collisions](#).

2019 Projects

Delirium Prediction in the ICU

Using a convolutional neural network, the ICU team determined if patients in the Kingston General Hospital (KGH) would experience delirium at any point during their stay. This project used real datasets from KGH, and the model achieved [82% accuracy in comparison to 70% by physicians](#). This project's success lead to a published paper and presentation at [Critical Care Canada](#).

Automated Grocery Checkout

The Grocery Checkout team worked on a computer vision solution that [classifies grocery items and calculates a customer's total bill](#), taking advantage of object localization, tracking, and detection.

Sponsorship Tiers

Title Sponsor* \$20,000+

As a Title Sponsor, you will receive direct branding alongside CUCAI (i.e. “CUCAI 2020 presented by ...”), ample marketing and use of your logo on our website and in any promotional material, as well as time to speak at the opening and closing ceremonies. Title Sponsors have the unique opportunity to establish themselves with the remarkable students attending CUCAI through exclusive campus recruiting events. Lastly, Title Sponsors will receive priority access to top AI talent as well as all the benefits of Diamond, Gold, and Silver level sponsors.

*There may be up to two noncompeting Title Sponsors

Diamond Sponsor \$10,000

Diamond Sponsorship offers the opportunity to make a significant impact on CUCAI while generating massive exposure for your company. This opportunity includes sponsoring specific events at the conference and hosting a workshop. These benefits come on a first-come-first-serve basis, so make sure to commit to this tier of sponsorship as soon as possible! Benefits in Gold and Silver levels are also included.

Gold Sponsor \$5,000

Gold Sponsors provide significant support for the conference and will have direct branding engagement with delegates via the sponsored meals the conference will provide to all attendees through Uber Eats. In addition to greater brand promotion via social media, these sponsors will also receive access to the CUCAI Taster Event in January for recruitment, increasing their exposure to the massive pool of talent that we are tapped into.

Silver Sponsor \$1,000

Silver Sponsors are the foundation of our conference. These partners bring a wide breadth of backgrounds and areas of expertise. Perfect for those looking to establish their name in the artificial intelligence industry through a diverse set of opportunities such as the professional showcase where you can interact one-on-one with talented students. You will also receive access to delegate resumes and design team look-books - perfect to enhance the recruiting process.

Sponsorship Table

	Silver	Gold	Diamond	Title
Thanked at opening and closing ceremonies	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

Recruiting	S	M	L	XL
Access to delegate resume book	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Access to design team look-book	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Professional showcase booth at conference	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Exclusive January CUCAI Taster recruiting event	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Exclusive coffee chats with top delegates			<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

*These benefits are limited to a first-come-first-serve basis, please contact us for availability

Sponsorship Benefits

Sponsored Events & Meals

With so many high quality events and amenities at the conference for our delegates including panels, networking sessions, student showcases, pitch competitions, and more, associate your company with one of these opportunities and have direct delegate exposure and brand recognition.

Workshops

This year, our workshops will be online events with active delegate participation. This is the perfect opportunity to demonstrate how to build an app using your platform, or to have students compete to explore solutions to real problems that your company faces. Creativity is key here and we are open to any ideas you might have.

Design Team Look-Book

There will be more than 30 design teams presenting at CUCAI. Every sponsor will receive a digital booklet before the conference detailing all the projects so you can make sure to see your favourites.

Resume Book

The delegates of CUCAI are among the best undergraduate talent in AI. We will be collecting resumes from all delegates and distributing them to partners in digital booklets.

Coffee Chats

With access to the CUCAI resume book ahead of the conference weekend, you will be able to select your favourite candidates to schedule a video call with a representative from your company. Think of this as an informal interview where you can get to know a candidate beyond just their resume.

Professional Showcase

Every sponsor will have the opportunity to present a user-friendly virtual booth at our professional showcase. This is your opportunity to speak one-on-one with delegates and distribute digital promotional material.

Taster Event & Recruiting

In order to better accommodate your hiring timeline, sponsors will have the unique opportunity to participate in exclusive online recruiting events with students across Canada before the date of the conference, at the taster event in January. In addition to undergraduates across various universities, the event will also be specifically advertised to the 200+ members of QMIND - Queen's AI Hub, Canada's largest undergraduate AI and ML organization, all of whom are highly skilled and interested in careers and internships in the field of AI and computer science.

COVID-19 Response

To ensure the safety of both our delegates and industry representatives, CUCAI 2021 has responded to COVID-19 by transitioning to a fully online format for the conference. While an online format presents a new and different experience to participants, the CUCAI 2021 team is dedicated to delivering the same phenomenal value, opportunities, and experiences in innovative ways.

Without the requirement for physical venues, or transportation for the conference's events, ticket prices will be drastically reduced for delegates, making the conference more accessible to a wider range of students. An online format allows us to have hundreds more delegates and invite speakers from all over the world. To continue to provide the same level of quality, CUCAI will be covering breakfast, lunches, and dinner for attendees through an online delivery platform (Uber Eats). Delegates will also still receive conference "swag" packages including promotional material through a mail-in service. We intend to maximize our online platform options to ensure that meaningful, interpersonal interactions are still a substantial aspect of the conference through virtual networking events, structured Q&A sessions with design teams and industry representatives, and the pitch competition event, and more!

We are committed to improving the quality of the experience for all guests at CUCAI 2021, despite the obstacles posed by COVID-19, and are excited to have you join us as we tackle this adversity to deliver the most successful CUCAI to date.
